DIGITALIZED FINANCIAL EDUCATION FOR SENIORS -  
INTERACTIVE SCENARIO GAMING SOLUTIONS FOR  
INCREASING ONLINE FINANCIAL LITERACY OF  
SENIORS

## WHAT'S NEW ON "DEFINE"

The DEFINE project partners met online at the beginning of February to discuss about the implementation of the trainings and to plan the upcoming activities.

## TRAINING IMPLEMENTATION

In the last months all partner countries implemented DEFINE trainings for seniors and train the trainer event. In summary, we can state, that all trainings for seniors and train the trainer event were **successfully implemented**.

Participants were interested in the trainings and they found them **useful** for their everyday life.

In evaluations of the trainings seniors exposed the importance of all the modules presented, however, the biggest interest was shown in the topics related to **online banking** and **security issues**. In some parts of the trainings they would prefer a bit more interaction and less theory.

**Interactive games** developed within the project made the training really interesting and seniors were excited to play them. In general, seniors appreciated the knowledge they got through the trainings.

TRAIN THE TRAINERS

Participants at train the trainer event acquired specific skills which they will use to help seniors to become qualified and proficient user of online banking environment. They exposed that trainings are well structured in order to **improve the knowledge and skills of seniors** to match the various changes in digitalized financial industry.

The most important is that trainers at train the trainer event exposed their willingness for implementation of DEFINE trainings in the future. In this way we can assure the sustainability of the project results and encourage seniors to take the opportunity and get the needed financial skills via DEFINE trainings in the future.

Sustainability of the results will also be assured with the **evaluation and transferability handbook**, that is currently in development phase. Besides all suggestions made in evaluations of the trainings also guides for transferability of the trainings in the future will be included in this handbook.

---

## WHAT IS COMING?

In the following weeks, partners in Germany, France, Italy, and Spain will organize the **DEFINE multiplier event** to increase the awareness about the project results.

Furthermore, in 3rd of March 2022 we are organizing also an **online DEFINE conference**, where all main DEFINE results will be presented. More information will follow soon.
